

Internship Completion Certificate

This is to certify that Devarsh Mistry successfully completed an internship as a Backend Developer at AttackBox from January 1, 2024 to April 30, 2024.

During the internship period, he demonstrated exceptional dedication, enthusiasm, and professionalism in fulfilling the responsibilities assigned. He actively contributed to the development and maintenance of scalable and efficient server-side applications, showcasing his skills and expertise in backend development.

Devarsh Mistry effectively collaborated with the backend development team, participated in code reviews, debugging sessions, and troubleshooting activities, ensuring the delivery of high-quality code. He also exhibited a strong commitment to staying updated on industry best practices and emerging technologies in backend development.

We hereby acknowledge Devarsh Mistry's valuable contributions to our team during the internship period. We believe that He has gained valuable real-world experience and has significantly enhanced his skills and knowledge in backend development.
